10) WHEN will we set up emergency services?	As soon as determined by FLOWs BOD
11) WHAT services will we provide?	As necessary: Sewage waste removal from lift station; Portable toilets, if necessary

Dear Fountain Lake Residents,

With the start of our 2025 hurricane season, I have attached, for your information, our updated FLOWs emergency plans and procedures for 2025. Please print a copy of this item so that you will have it available in case we lose power and you can't access this item from your computer.

To summarize the emergency plans and procedures, in case of a weather event like a hurricane, I will be the first contact, Mark Tubbs will be the second, and Bridget Wix will be the third. In case of loss of power, you can contact any of the three people listed above.

As in the past, if all power goes off, you will need to supply your own drinking water. Secondly, and more importantly, toilets will not flush due to loss of water supply. Depending on how long power is out, we may have to set up a service to pump out the sewer lift stations. In addition, we may also elect to supply portable toilets, but each situation will be judged on the needs at the time of the occurrence.

Hopefully, we will have a good year and none of the plans and procedures will have to be implemented.

If you have any questions, please feel free to call, text or email me at:

Sincerely,

FLOWS Board

David Holt

FLOWS President

(832)807-6620

Bridget Wix

Secretary/Treasure

Mark Tubbs

Vice-President
